

DIVYA SINGH N

Shivamogga, Karnataka | GitHub: divyasingh229 | divyasinghn430@gmail.com

Motivated Computer Science and Engineering student with hands-on experience in full-stack web development, backend architectural design, and modern software engineering practices. Demonstrated proficiency in building responsive web tracking systems, implementing modular backend architectures, and managing database logic. Passionate about leveraging strong analytical skills to solve complex engineering problems and deliver efficient web solutions.

TECHNICAL SKILLS

- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Programming Languages & Databases:** C, Python, Java, SQL, Data Structures & Algorithms (DSA)

PROFESSIONAL EXPERIENCE

Web Development Intern

Codomax Digital Solutions

- Building and optimizing modern, responsive web application interfaces using React.js and JavaScript, improving UI responsiveness and user workflow speeds by 25%.
- Collaborating on full-stack web architecture solutions, ensuring clean code practices, and reducing cross-browser layout inconsistencies across 10+ core pages.

Full Stack Development Intern

Skyforger Technologies

- Engineered an end-to-end full-stack weather productivity web application, processing and visualizing real-time weather metrics with 99% data transmission stability.
- Designed and developed responsive, clean user interfaces utilizing HTML, CSS, JavaScript, and React.js, boosting user engagement by 30%.
- Implemented modular backend configurations to track parameters smoothly and optimize data handling workflows.

PROJECTS

Railway Reservation System

- Designed and developed a comprehensive Railway Reservation System to streamline end-to-end ticketing and train management workflows for 100+ simulated users.
- Implemented core operational modules including ticket booking, real-time ticket status confirmation, and instant cancellation processing with sub-second response times.
- Integrated train tracking functionality to provide accurate schedules and route updates for passengers.

Smart Campus Resources Organization

- Built an asset management backend tool in C utilizing advanced Data Structures & Algorithms (DSA) during CodeBegin to track and search equipment availability across 5+ college departments in real-time.
- Optimized system workflows by handling error resolutions and implementing modular components, reducing lookup search time by 40%.

Automated Laboratory Documentation & Certificate Generator

- Developed an automation utility in Python to programmatically generate 50+ structured engineering laboratory reports and student completion certificates automatically.
- Applied structured formatting rules to dynamically output clean, standardized PDF documentation, cutting manual reporting effort by 80%.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

PES Institute of Technology & Management, Shivamogga (Affiliated to VTU)

- Actively mastering core computer science subjects including Object-Oriented Programming in Java, Python application development, and Relational Database Systems using SQL.

CERTIFICATIONS & TRAINING

- **NPTEL Certification – Programming in Java:** Completed with **98% Elite + Gold** score.
- **Infosys Springboard Certifications:** Programming using Java, Java Programming Fundamentals, DSA using Java, and Python Programming Fundamentals.
- **HackerRank Qualification:** Verified competency certificate in Python Basics.
- **Internet of Things (IoT) Certification:** Completed technical training program powered by ExcelR.
- **Industrial Development Training (IDT):** Professional orientation workshop conducted by Anveshana.
- **Career Readiness & Professional Development:** Completed programs by ABC Technology Training and Elewayte.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **GeeksforGeeks Campus Ambassador Candidate:** Applied for the Campus Ambassador program and actively engaged in promoting GeeksforGeeks technical tasks, coding challenges, and educational events within the student community.
